## After School Enrichment Program

### *Event Description*

Hathaway School PTA offers after school enrichment programs for all grades and ages! Our goal is to offer two 4-week sessions during the winter months to enrich our student's after school hours. We provide all our students access to a wide variety of arts, sciences, and sports from which to choose from. This is a pay per student program.

### *What does the HPTA do?*

HPTA starts by collaborating with the school staff and Principal to create a working schedule in which to offer programs. Enlisting programs from the community and staff, we create a twice weekly, 4-week session for the students and parents to choose from. From creating registration packets, to collecting and organizing all monies from parents, the Program Coordinator must be prepared to work closely with the HPTA treasurer(s) and other members of the team. Volunteers attend all programs and the Program Coordinator(s) are required to attend all sessions.

**Volunteers needed:** Program Coordinator to oversee and run the program. Parent volunteers in each classroom are required. Program coordinator may choose to share the role of coordinator with another volunteer.

**Volunteer shifts:** Parent coordinators and volunteers must commit to attend all 4-week classes. A \$20 refund for attending all 4-weeks will be given if your child enrolled in any program that session.

### *Budget*
